

HARRY GARDNER

Source: Waveland Independent Waveland, Montgomery County, Indiana June 25, 1926

Harry Gardner was brought home on Saturday. Ben Canine went after him so of course he got home in good shape. He is able to get about slow. His recovery is little short of miraculous as the appendix had burst and peritonitis had set in. We are all glad to see Harry back and hope his recovery will be rapid and complete - typed by kbz
