

ANNA BUTLER HAMPTON - improves after operation

Source: Darlington Herald 2-2-1917

Mrs. Anna Hampton, who was operated on at the Methodist Hospital at Indianapolis Monday morning is improving very nicely and unless unforeseen complications arise she will be able to return home within a fortnight. She had been experiencing pains in her side for the past two weeks and had also been confined to her home with LaGrippe. After an examination by Drs. Peacock and Pollom Sunday morning, it was decided that an operation was imperative and she was taken to Thorntown in an automobile and from there on the Big Four to the hospital. She was accompanied by her husband, Lee Hampton, her parents, Mr. and Mrs. I.H. Butler and Dr. Peacock and the operation was performed at 8 o'clock Monday morning. The trouble was as had been diagnosed and a tumor and the appendix were removed. Mr. Butler and Dr. Peacock returned Monday afternoon, Mr. Hampton Monday night and Mrs. Butler remained at the hospital with Mrs. Hampton.
