

Leon OLIVER

Waveland Independent March 20, 1914

Dr. Green came down from Crawfordsville Friday to remove the injured eye of Leon, the 5-year-old son of Mrs. H.C. Oliver. It will be remembered that the sight of the eye was destroyed some time ago when he was shot in the eye by a playmate with an arrow. The irritation was affecting the uninjured eye and it was thought advisable to perform the operation without delay. The little fellow stood the operation well and is getting along nicely.
