

## CHARLES HANNAH

Source: Waveland Independent Waveland, Montgomery County, Indiana July 23, 1926

The first wheat was received at the elevator on Monday. Charles Hannah brought it in. It made 59 lbs. to the bushel. Joe Todd followed with some making 60 lbs but his boys beat him with a piece that made 63 lbs. to the bushel. Ed Hodgkin had 11 acres that made 37 bushels to the acre. All the grain was of good quality and it looks like the general run of the crop will make No. 2 or better. Ed Peck had 6 acres that made 285 bushels and Corta Dooley's wheat made 40 bushels per acre. - typed by kbz
