

State Highway System

Source: Waveland Independent, 15 Jan 1932

The state highway commission voted on Thursday to take 1,000 miles of roads into the system. Maintenance on the roads will begin as soon as funds warrant. Those of local interest are:

Bellmore to Waveland, Rd. 59

Danville to Turkey Run by way of Roachdale, Russellville & Milligan, probably No. 236

Crawfordsville to Attica by way of Wingate

Perrysville to the Illinois State Line. A continuation of No. 234.

There is a rumor that No. 234 will be made a National as well as state road - Feb 2 contracts will be let for paving No. 47 from the Parke County Line to Brezy Point Bridge contracts will be let Feb. 26. Work will begin as soon as weather will permit. This should give at least some local employment.
