

DELMARE STEVENS - 4800 # honey

Source: Crawfordsville Review Monday (sic - should be Saturday) Feb 26 1917 - (note: should be 1916)

Attica has a woman who sold a ton and half of butter last year, but that is nothing to compare to Delmare STEVENS who lived 3 miles SE of Mellott. He sold 4800 pounds, or yearly two and a half tons of honey last year. He had over 5,000 pounds of it but only 4800 pounds were sold. Mr. Stevens is the oldest son of Warren Stevens and at present he had 80 stands of bees. Two tons and half is surely some honey.
